Intelligrated was created with the vision of providing material handling solutions, services and products to a wide variety of customers, with particular focus on the challenges of the logistics and distribution industry. As the company continued to grow, Intelligrated expanded its solutions offering and market reach to serve the consumer product manufacturing, parcel and postal industries. Today they employ over 500 people and serve global markets. "The future of retail distribution will be defined by [multi-channel purchasing requirements](#) that are driven by the consumer but, however digital, mobile and social shopping behaviors become, at the end of the day the consumer needs to actually receive a physical product – which means distribution of that product."

Findlay Market

12:10 - 1:00 PM **Findlay Market** is Ohio's oldest continuously operated public market and one of Cincinnati's most cherished institutions. The Market is located just blocks north of downtown in Over-the-Rhine, a dense historic neighborhood rich in 19th century architecture. Findlay Market is home year-around to about two dozen indoor merchants selling meat, fish, poultry, produce, flowers, cheese, deli, and ethnic foods. On Saturdays and Sundays from April to November the Market also hosts a thriving farmers market, dozens of outdoor vendors, numerous street performers, and lots of special events.

Findlay Market is a gathering place for people from all over the city. It routinely attracts perhaps the most socially, economically, racially, and ethnically diverse crowds found anywhere in Cincinnati. They come for the sights and sounds and smells of an old-fashioned public market, for the great variety of fabulous fresh foods, for bargains, for people watching, and for a quintessentially urban shopping experience.
